

Vision and Ethos Statement

For

The Weston Park Primary School Governing Body

Weston Park Primary School - Excited About Excellence.

The governing body of Weston Park Primary School is made up of a group of people with experience in all areas of life and a variety of skills. We are passionate about and committed to ensuring that all our children receive a stimulating, affirming and happy education, in which all are valued, all kept safe and all achieve their full potential. We aim to have a school where our children are ***Excited about Excellence.***

Within the next five years we aim to achieve standards which children, parents, staff and Ofsted recognise as ***Outstanding***, by effectively fulfilling the role of "critical friend". We will support and encourage; but also challenge and hold to account. We will facilitate staff development and progression, to enable all our staff to become the best of the best. In order to achieve this, the governors will commit themselves to:

- **Raise the standard of educational achievement of all children in our care.**
- Enable and drive the school towards providing exciting and challenging educational opportunities for all children.
- Ensure that every child enjoys the same high quality of education in terms of resources, tuition and care.
- Improve the schools effectiveness by consistently reviewing the curriculum and organisational structure.
- Ensure provision of value for money for funds expended.
- Comply with all appropriate statutory and curricular requirements.
- Operate within the highest standards of integrity, openness and transparency.
- Ensure that there is effective communication between home and school.
