

Accessibility Plan 2025-2027

<u>Introduction</u>

This Accessibility Plan is drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting of progress of the Accessibility Plan over a prescribed period.

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act 1995 (DDA). The effect of the law is the same as in the past, meaning that 'schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation'.

According to the Equality Act 2010 a person has a disability if:

- He or she has a physical or mental impairment, and
- The impairment has a substantial and long-term adverse effect on his or her ability to carry out to normal day to day activities.

The Accessibility Plan is structured to complement and support the school's Equality Objectives, and will similarly be published on the school website. We understand that the Local Authority will monitor the school's activity under the Equality Act 2010 (and in particular Schedule 10 regarding accessibility) and will advise upon the compliance with that duty.

Objectives

Weston Park Primary School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

The school recognises and values parent's knowledge of their child's disability and its effect on their ability to carry out everyday activities and respects the parent's and child's right to confidentiality.

The Weston Park Primary School Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipating the need to make reasonable adjustments to accommodate their needs where practicable.

The SEN and Disability Act 2001 extended the Disability Discrimination Act 1995 (DDA) to cover education. Since September 2002, Weston Park Primary School (including the governing body) has had three key duties towards disabled pupils, under Part 4 of the DDA:

- to treat disabled pupils equitably regardless of disability;
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
- to plan to increase access to education for disabled pupils.

The Accessibility Plan contains relevant and timely actions to;

 Increase access to the curriculum for pupils with a physical disability and / or sensory impairments, expanding the curriculum as necessary to ensure

that pupils with a disability are equally prepared for life as the able bodied pupils; (if a school fails to do this they are in breach of their duties under the Inequalities Act 2010); this covers teaching and learning and the wider curriculum of the school such as participation in after school clubs, leisure and cultural activities or school visits — it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable time frame;

- Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary this covers improvements to the physical environment of the school and physical aids to access education within a reasonable time frame
- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

The Weston Park Primary School Accessibility Plan relates to key aspects of the physical environment, curriculum and written information.

Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An Accessibility Audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

Equality impact Assessments will be undertaken as and when school policies are reviewed. The terms of reference for all governors' committees will include the need to consider Equality and Diversity issues as required by the Equality Act 2010.

The Accessibility Plan will be published on the school website. The Accessibility Plan will be monitored through the Governors.

The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010.

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary and reported on annually. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

The priorities for the Accessibility Plan for our school website were identified by;

- The Governing Body
- Head Teacher and Senior Leadership Team, including the SENCO
- School Business Manager
- Site Manager

We are working within a national framework for educational inclusion provided by:

Inclusive School (DfES 0774/2001)

SEN & Disability Act 2001
The Disability Discrimination Act (amended for school 2001)
Code of Practice for Schools (Disability Rights Commission)
ISI inspection

The revised SEND code of practice September 2014

Action Plan
